dishti694@gmail.com | linkedin.com/in/dishti-3578833b9 | github.com/gandhidishti2006-a11y | Pathankot, Punjab, India

SKILLS

Languages: C++, Python, C, JavaScript , SQL
Tools/Platforms: My SQL Server, Git,Github,VS code
Soft Skills: Problem-Solving, Project Management, Adaptability

PROJECTS

Animatronic Eye Using Arduino | *C/C++, Sensors, Electronic Circuits* April' 26

- An **animatronic eye** is a robotic eye that mimics the movement of a human eye. Using an **Arduino**, servo motors can control the eye's movement.
- To control eye movement using Arduino programming, enabling smooth horizontal and vertical motion.
- To interface electronic components such as servo motors, sensors, and power supply with the Arduino board.

Quiz Hub Website | *Javascript, HTML, CSS, UI/UX design* Mar '26

- Developed an interactive web-based quiz platform using HTML, CSS, and JavaScript, featuring category selection, dynamic questions, score calculation, timer functionality, and responsive UI design. Implemented DOM manipulation and local storage to provide an engaging and user-friendly learning experience.

EXTRA CURRICULAR

Community Development Project July'26

. The Activity aimed to encourage environmental awareness and responsible citizenship among students.

Another objective was to develop critical thinking skills through the Times Critical Championship(TCTC) in collaboration with The Times of India.

GSSOC Girlsript

.Selected for the gssoc.girlscript.org for the role of Contributor/Mentee.

. This opportunity will allow me to strengthen my open-source development skills, collaborate with developers, contribute to real-world projects, and learn through the open-source community.

CERTIFICATES

Python ITL Informatics	June'25
Building with AI saylor.org	Feb '26
Introduction to Cyber Security	Mar'26

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology	Aug' 25 – Present
Computer Science and Engineering(AI ML) ; CGPA: 8.2
